

OWNING THE STREETS

FOR 50 YEARS!

On the heels of the National Hockey League's first expansion in 1967 from the Original Six to Twelve Teams Raymond W. Leclerc had a vision for an entirely new sport that would grow interest and provide enjoyment for hockey enthusiasts! This new sport would permit everyone to participate in the developing game of hockey across North America within their own "off ice" parameters at relatively low entry cost. His vision could be realized with a simple stick and ball and an open playing area to play anywhere and anytime. He would never have believed how over 50 years his vision would have evolved into the passionate following in Dek, Street and Ball Hockey Leagues as well as driveways and cul-de-sacs across the globe! What a legacy he created that began with only a no-bounce orange hockey ball. "Hockey Starts Here"

From the beginning and to this day Mylec's vision has been to provide the sports industry USA manufactured products! To that end we have been able to provide secure employment for generations of employees who share with us the goal of making a valuable contribution to the economic well being of our country." This may well be our greatest accomplishment!

The commemoration of our 50th anniversary is not only a corporate celebration based on the company's founding in May of 1970, it is an anniversary for the entire Mylec Family who have been part of the journey. Their 50 years of continuous loyalty to the Leclerc values of building quality products for hockey enthusiasts to enjoy the game to the fullest makes all of us very proud and we thank you for your service sincerely.

To our extended Mylec Family: our customers, our suppliers and every player that has ever purchased one of our Mylec products we are most grateful for your support. Without all of you our mission would never have been realized. Thank you for your past and continuing support.

This 50th year milestone only encourages us to continue to evolve our brand and our products to be the best we can be as we position our company for the next 50 years.

Sincerely,
Ricky Laperriere
President

A black and white photograph of a hockey player wearing a helmet and jersey, holding a hockey stick. The player's eyes are visible through the helmet's cage. The background is dark, and the player's gear is detailed.

ACCESSORIES

MYLEC EQUIPMENT BAG

The Mylec equipment bag is constructed of heavy-duty polyester for long-lasting durability. This bag withstands wear and tear from taking sporting equipment to practices, scrimmages, and more, and has the space to fit all hockey equipment—even the goalie. The carry straps wrap around the bag for more comfortable, hands-free transport; distributing weight evenly for strengthened support. The U-style zipper allows for convenient grab-and-go of equipment, so practice and games start within seconds. Bag is 32"L x 16"W x 14"H.

900	4 Pack
-----	--------

MYLEC DRAW STRING BAG

The Mylec drawstring bag is made of a durable and rugged material to withstand daily wear and tear. It comes with an easy cinch draw cord to close up your bag from losing anything that's put in, even Mylec hockey balls. Bag is 16½"H x 12½"W.

MKDS	6 Pack
------	--------

MYLEC BACKPACK

The MK5 Sport Pack is a great option for any player looking to easily carry their equipment to and from the rink. Features one large "U" shaped pocket with a heavy-duty zipper, with space to fit all protective gear, along with another front facing "U" shaped pocket to hold additional accessories. Two mesh side pockets and two wide-width, heavy-duty, adjustable shoulder straps allow for comfort while holding all the gear.
